

Before Grain Chicken 1.1lb Trial Bag

Before traditional grain based diets were invented, mealtime for generations of cats was provided by nature. Our new Before Grain product line provides a diet rich in high quality meat and bio-available nutrients the way nature intended. We believe a diet based primarily on fresh meat, super blue fruit, nutrient dense vegetables and high quality oils contribute to overall health and longevity.

Fresh Chicken is the #1 ingredient - there are NO grains, fillers, by-products, artificial colors, flavors or preservatives!

We've formulated our Before Grain dry varieties with your "everyday extraordinary" cat in mind, and the result is the most palatable, grain-free cat food on the market. This is the way food was supposed to be, before grain got involved.

Guaranteed Analysis:

Crude Protein (Not Less Than) 36.0%

Crude Fat (Not Less Than) 18.0%

Crude Fiber (Not More Than) 3.0%

Moisture (Not More Than) 11.0%

Calorie Content:

3780 kcal/kg (calculated) – One pound provides 1719 kcal of metabolizable energy (calculated). One cup (100 grams) provides 409 calories. (Caloric content calculated using Modified Atwater Method).
