

EVO
95% Duck
Canned Dog Food *THE ANCESTRAL DIET*
MEETS MODERN NUTRITION

The protein in EVO is derived from premium quality meats that are highly digestible, highly palatable and provide maximum nutrient absorption. Fresh meats provide vital nutrients like amino acids (such as lysine and taurine), essential minerals, and other key building blocks that encourage strong bones and muscles.

EVO 95% Duck Canned Dog Food is grain free. By removing ALL grain from the diet, EVO minimizes starch or carbohydrate intake while maximizing the concentration of protein. In fact, EVO provides high-quality protein at a level that is among the highest available anywhere. In addition, EVO contains both linoleic acid (an omega-6 fatty acid) and omega-3 fatty acids.

EVO BENEFITS

- Grain free for when extra carbs and grain intolerances are a concern
- High levels of protein from quality meat, poultry and fish
 - Excellent palatability
 - Skin and coat health
- High digestibility and decreased waste
 - Energy and nutrient-dense
- Formulated with added antioxidant vitamins
- Fortified with vitamins and minerals

EVO 95% Duck Canned Dog Food is formulated to meet the nutritional levels established by the [AAFCO \(Association of American Feed Control Officials\)](#) Dog Food Nutrient Profiles for adult maintenance.

Available in 5.5 ounce and 13.2 ounce cans.
