

FEEDING MANAGEMENT

We recommend that you do not add vitamins, minerals or any other supplements, except upon the advice of a veterinarian. When switching your dog's diet, the change should be made gradually, by replacing the current food with increasing portions of Natural Balance® Ultra Premium Reduced Calorie Formula. The change should be completed after 5 to 7 days. The maintenance of proper body weight is most important for your dog's health. Consult your veterinarian for specific weight recommendations for your dog. Remember, fresh clean water should be available at all times!

The Adult Adult dogs should be fed either once or twice per day. When you first start feeding Natural Balance® Reduced Calorie Formula, we suggest to start with the amounts recommended in the Table. Energy requirements vary with environmental conditions, temperature and activity of your dog. The

amount of food should always be adjusted to suit your dog's needs. If you would like to provide a special treat for your dog, you can add small amounts of Natural Balance® Canned Dog Food.

The Older Dog As your dog begins to age, his energy expenditure will decrease. Decreasing the amount of food accordingly will allow for the maintenance of proper body weight for less active dog. Older dogs are sometimes more reluctant to eat hard foods. Adding larger amounts of Natural Balance® Canned Dog Food or Natural Balance® Dog Food Rolls will make the most "finicky" eater enjoy his daily meals.

INGREDIENT LISTING

Brown Rice, Chicken, Chicken Meal, Potato Fiber, Rice Bran, Tomato Pomace, Beet Pulp, Pearled Barley, Salmon Meal, Chicken Fat (preserved with natural mixed tocopherols), Lamb Meal, Oatmeal, Natural Flavor, Carrots, Potatoes, Duck, Brewers Dried Yeast, Sodium Chloride, Potassium Chloride, Salmon Oil, Whole Ground Flaxseed, Choline Chloride, Taurine, Natural Mixed Tocopherols, Spinach, Parsley Flakes, Cranberries, L-Lysine, L-Carnitine, Yucca Schidigera Extract, Dried Kelp, Vitamin E Supplement, Iron Proteinate, Zinc Proteinate, Copper Proteinate, Ferrous Sulfate, Zinc Sulfate, Copper Sulfate, Potassium Iodide, Thiamine Mononitrate (Vitamin B-1), Manganese Proteinate, Manganous Oxide, Ascorbic Acid, Vitamin A Supplement, Biotin, Niacin, Calcium Pantothenate, Manganese Sulfate, Sodium Selenite, Pyridoxine Hydrochloride (Vitamin B-6), Vitamin B-12 Supplement, Riboflavin (Vitamin B-2), Vitamin D-3 Supplement, Folic Acid.
