

**The Adult** Adult dogs should be fed either once or twice per day. When you first start feeding Natural Balance® L.I.D. Limited Ingredient Diets® Sweet Potato & Fish Formula, we suggest to start with the amounts recommended in the Table. Energy requirements vary with environmental conditions, temperature and activity of your dog. The amount of food should always be adjusted to suit your dog's needs.

**Pregnant Females** (See Our [Feeding Page](#) for More Details!)

Minimal increase needed during first 6 weeks.

Weeks 7, 8, & 9 increase up to 25%.

**Lactating Females** (See Our [Feeding Page](#) for More Details!)

Immediately after whelping, the nutritional demand increases by 50% compared to maintenance levels.

Feed in 3 equal meals per day.

**Working Dogs** Based on the work your dog will be asked to perform, the nutritional requirements will vary accordingly. As the work load increases, the demand for protein and fat increases proportionally.

Dogs in hard training will generally require twice the maintenance levels.

**The Older Dog** As your dog begins to age, his energy expenditure will decrease. Decreasing the amount of food accordingly will allow for the maintenance of proper body weight for less active dog.

### FEEDING MANAGEMENT

We recommend that you do not add vitamins, minerals or any other supplements, except upon the advice of a veterinarian. When switching your dog's diet, the change should be made gradually, by replacing the current food with increasing portions of Natural Balance® L.I.D. Limited Ingredient Diets® Sweet Potato & Fish formula. The change should be completed after 5 to 7 days. The maintenance of proper body weight is most important for your dog's health. Consult your veterinarian for specific weight recommendations for your dog. Remember, fresh clean water should be available at all times!

### INGREDIENT LISTING

Sweet Potatoes, Salmon, Salmon Meal, Canola Oil, Potato Fiber, Natural Flavor, Sodium Chloride, Salmon Oil (a source of DHA), Flaxseed, Potassium Chloride, Methionine, Choline Chloride, Natural Mixed Tocopherols, Taurine, Vitamin E Supplement, Iron Proteinate, Zinc Proteinate, Copper Proteinate, Ferrous Sulfate, Zinc Sulfate, Copper Sulfate, Potassium Iodide, Thiamine Mononitrate (Vitamin B-1), Manganese Proteinate, Manganous Oxide, Ascorbic Acid, Vitamin A Supplement, Biotin, Niacin, Calcium Pantothenate, Manganese Sulfate, Sodium Selenite, Pyridoxine Hydrochloride (Vitamin B-6), Vitamin B-12 Supplement, Riboflavin (Vitamin B-2), Vitamin D-3 Supplement, Folic Acid.
