About

Thrive is our gluten-free, low carbohydrate dog food. This diet was designed to cater to dogs of all life stages including adults, puppies, pregnancy and nursing. Thrive is ideal for sensitive dogs who need gluten-free dog food but with a little grain, to help maintain a healthy body weight.

Thrive is a very minimalist, nourishing diet which is also recommended for dogs with sensitivities: It contains NO fruits, potatoes or flax. Suitable for all life stages; puppies, pregnancy, lactation, active adult dogs & healthy seniors. Thrive is naturally low-carb, with just 37% carbohydrates. Low carb diets are often indicated as part of a holistic approach to [cancer recovery](#).
