Comforts Infected, Inflamed
and Itching Ears

Gentle
Ear Cleaning
Lotion

Removes Wax & Foreign Debris,
Soothes & Calms

4 fl. oz - 118.3 ml

MADE IN USA

WHY CHOOSE EARS ALL RIGHT[™]

- All natural herbal extracts cleans ears without drying and/or burning.
- Safely removes ear gunk and foreign debris.
- Soothes and comforts pet ears that itch, are red, and visibly annoy your pet.

Ingredients: Aloe vera gel (whole leaf), isopropanol USP, glycerine 99.5% USP, de-ionized water, calendula extract, rosemary extract, myrrh extract, cinnamon leaf oil.

Veterinarian recommended. Ark Naturals[®] products are formulated by Dr. Nancy Scanlan, DVM and Dr. C. Leigh Broadhurst, PhD.

DIRECTIONS AND RECOMMENDED USE: For Dogs and Cats 12 weeks and older.

Initial Use: For pets with sensitive, inflamed and or encrusted ears, 5-10 drops of solution should be squeezed directly into ear canal. Allow to soak, and then attempt to clean ear with clean cotton ball. Repeat 2-3 times per day for several days as necessary.

Maintenance: Squeeze Ears All Right[™] onto a cotton ball and gently clean and swab ear and ear canal. Clean ear internally and externally. To avoid transferring infection, do not use the same cotton ball in each ear. Always clean pet's ears after swimming and bathing, and when pet has been playing in an area you suspect is insect ridden.

NEVER INSERT SHARP OBJECTS DIRECTLY INTO EAR CANAL

Individual results may vary according to age, condition, diet and lifestyle. Natural remedies do not take the place of expert veterinary care. Always consult your veterinarian if you suspect your animal is ill. If your vet is not familiar with Ark Naturals[®] please contact us, and we will be happy to send our clinical information.

About Ark Naturals[®] and our ingredients. Our ingredients and manufacturing processes are all natural, human quality and are GMP (Good Manufacturing Practices) compliant. Manufactured in the USA in FDA/OTC inspected facilities. Proud members of NNFA, APPMA and NASC.

KEEP OUT OF REACH OF CHILDREN. STORAGE: Cap tightly, cool, dry location.
